COMMUNIQUE

Dear Mr. Heinen,

Thank you for your letter of conformation in relation to the test on Jan. 23, 1993. I started at 2:00a.m. with the Morse code ID's that you supplied me with. I continued to play the 2min. ID's over and over until 2:16a.m. (About 7 times) I did this because your letters instructions were a little vague to me being new, in the business of radio. I was'nt sure on how many times to play ID's. However I guess seven times was enough because I have received five letters so far.

Our power was 250 watts at 690 KHz and I was vary happy to do the test for you and the National Radio Club. If their is any way I can help you again please drop me a line. I find this kind of "stuff" INTERESTING.

Yours truly,

Charlie Bottenberg
Director of Engineering
