Dear Mr. Heinen,

I am happy to hear from you and at the same time sorry to learn of your difficulty of obtaining a response. Some managers will not reply to requests such as yours.

It is impossible for me to accurately verify any reported reception dating back more than two years because previous program schedules and logs are no longer available.

However, in checking through some of the station's older "ID" carts I did find one that matches with the one you reported and would conclude that is proof of reception

Hopefully you will find this information usefull.

Sincerely,

Stan Hale  
Station Manager
