Mr. Wayne Heinen  
2603 Paseo Rd.  
Colorado Springs,  
Colorado  
80907  
U.S.A.

Dear Mr. Heinen:

This will acknowledge receipt and verification of your reception report dated November 28, 1976. It was interesting to hear that our signal is reaching Colorado Springs, Colorado.

Our transmitter is a 10,000 watt RCA Model, operating non-directionally 24 hours daily. We have another 10,000 Watt RCA Standby rig, and an emergency 250 watt transmitter in our studio building downtown.

Thank you for your interest, and continued good "DXing".

Sincerely,

A handwritten signature in blue ink that reads "Harry Boon".

Harry Boon
