THE COUNTRY FM

Dear DX Listener

We are happy to confirm your reception report of KCBQ, 1170 kHz, San Diego, Calif on JAN-9-83 between 10:35 hrs and 11:03 hrs.

KCBQ operates with 50 kw during the day and with 5 kw at night. Our scheduled operation is 24 hours per day with the exception of Monday morning during which time maintenance is performed on the transmitting equipment.

KCBQ utilizes six transmitting towers in a parallelogram configuration. The four outside towers are used for the 50 kw day pattern and all six towers are used for the night pattern. The transmitter site takes up 20 acres of land.

If you get to San Diego we may be able to show you through the transmitter facility - time permitting. Please call us for a specific time.

73's on your DXing and we're proud to be one on your list.

Sincerely,

Joel Saxberg
Technical Director
