Dear wayne,

Received your qsl report from Colorado Springs with great interest. I just started as chief engineer here in turlock last month. i moved here from Denver where I was assistant Chief at KIMN/KYGO and earlier KHOW and KHOW-FM. Before that i was contract chief at KWYD in security and a Control room operator at KKTU. I ve been a DJ at KPIK and a Newsman for KRDO.

This is to confirm your QSL of 12/24/79 for KCEY radio station in Turlock california.

Good to hear from colorado springs and glad to QSL as I'M an active ham, (past president, pikes peak radio amateur association) and a broadcast DXer myself.

Yours truly,

Bill Croghan  
Chief Engineer

Kcey/ Kmix-fm
