ST. FRANCIS HOTEL · SAN FRANCISCO, CALIFORNIA 94119

Dear Mr. Heinen:

I am pleased to verify your reception report of January 18, 1976. KKHI employs a directional antenna to protect among other stations CBE in Toronto, therefore we are allowed to radiate the equivalent of less than 1,000 watts in your direction. The Mexican station which you heard probably was XEBG in Tijuana.

Sincerely,

Fred Krock
Chief Engineer

Mr. Wayne Heinen
