Dear Wayne,

An apology is in order. Your letter was buried and just discovered on my somewhat untidy desk.

This will verify your reception of KROP on October 20, 1985. The restaurant is El Jarrito, we are a 24 hour Country Music Station with emphasis on Ag-news. The transmitter is a Harris (Gates) BCLH...lkw day, 500 w night. The tower is 232' self supporting 3 miles north of Brawley. You may find it interesting that we are 119' below sea level.

We have been heard in Japan and New Zealand. In 1945 I worked as an announcer at KOY in Phonenix. I had a regular listener in New Zealand who like Bing Crosby tunes. Needless to say I played plenty for him. It's a great business and yours a grand hobby. Thanks for your interest.

Cordially,

  
Jack Stodelle  
General Manager
