Chief Engineer
KUTY Radio
38201 6th St. E
Palmdale CA 93550

Dear Sir,

I am very pleased to report reception of KUTY on 1470 kHz on December 18, 1983 at 12:05 pm PST. I would like to offer the following program details as proof of this reception:

12:05 pm End of AP radio News then Brian (....) with KUTY weather for a few Southern California areas followed by music.

I would first like to apologize for handwriting this letter but my typewriter is in the shop for repairs and I hate to let a report lay around for weeks. I heard KUTY on a R-390-A/one Army surplus 23 tube receiver with a 15" ferrite core loop antenna.

I am located on the eastern edge of the Denver metro area. By trade I am a real estate appraiser and have been a BCB DX'er since 1964.

Please find enclosed return postage to facilitate your reply. I would appreciate a verification of this reception from KUTV to add to my collection.

Thank you in advance for your time and consideration in answering this report.

Sincerely
Wayne Heinen

Thanks for
your letter. Wayne
this note will serve
of verify your receipt
of KUTV.
Sincerely,
Dale & Gay Warr
