

1490
THE DIFFERENCE
KBKS

September 7, 1994

Wayne Heinen
4131 S. Andes Way
Aurora, CO 80013

Dear Wayne,

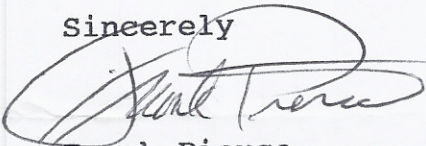

This is to confirm your reception of 1490 KBKS on September 5, between 10:37 and 10:47AM. The programming you describe is correct, and yes, we definitely do have a different mix of music!

KBKS was formerly KBOL; the call letter and format changes were made August 15.

We have been doing some work on our transmitter, a 1000 Watt Harris, and have added some new processing equipment. Within the month some engineering work is going to be done on the tower, which is expected to increase our signal strength and reach.

Thanks for your report, and I would like to hear from you again in a month or so to see if the tower work improves our signal in your area.

Sincerely

Frank Pierce
Chief Operator/GM
