General Manager  
KBOL Radio 1490  
Boulder, CO

Dear Sir,

I am very pleased to report reception of KBOL on 1490 kHz on 10-12-83 from 11:14am until 11:38am MDT. I would like to offer the following details of your programming as proof of this reception:

11:14am Carpenter's Song  
11:17am Time Check & "Sweet Life" song.  
11:20am your at AM 1490 KBOL & song by Quaterflash  
11:24am (back from grabbing my coffee!) end of weather forecast & spot for Furniture Mart of Longmont Remodeling Sale  
11:25am Radio Advertising Promo call KBOL @ 444-1490.  
11:26am KBOL Jingle & song by Culture Club  
11:29am Time Check & "Send Her My Love"  
11:32am DJ Don Randall & song "Cherish"  
11:36am Spot Farmers Insurance  
11:37am Spot Consign A Car dealer Fisher Chevrolet  
11:38am More Music

Since coming to the Denver metro area recently I've noticed that KBOL's signal will not reach me in Aurora at night. My previous location in Colorado Springs had KBOL blocked by 24 hour local KIIQ Manitou Springs. I use a US Army surplus communications receiver with a 15" ferrite core loop antenna.

Please find enclosed a brochure about BCB DX and the National Radio Club of which I'm a member. Also return postage to facilitate your reply. I'd appreciate a verification from KBOL to add to my collection if this report is indeed correct.

Thank you in advance for your time and consideration in answering this letter and helping me with my hobby

Sincerely,

*Wayne Heinen*
