Wayne Heinen
4131 S. Andes Way
Aurora, CO 80013

Dear Mr. Heinen

Thank you for your DX report of 12 November 1988. Although it is no surprise that you were able to report excellent reception, I am pleased to verify your report.

KBPI-AM operates at 5 Kw directional, fulltime. The transmitter is located near Brighton, Colorado, where it was originally constructed in 1955.

Thank you again for your interest.

Sincerely,

A handwritten signature in black ink, appearing to read 'Lynn Osburn', written over a circular stamp.

Lynn Osburn
Chief Engineer
