Hi Wayne,

Sorry for the delay in responding to your reception reports. Things never seem to slow down around here.

Thanks again for helping me out with JOTA last year. We had a great time Ken's. He gave our scouts quite an overview of ham radio. We made a lot of great Boy Scout QSO's including W1AW. I will begin working on JOTA earlier this year, HI.

I am pleased to Confirm your reception of KCKK, 1600 kHz, on May 15, 2001, during the time of 12:56 PM and 12:58 PM MDT. Operating at 5,000 watts, with a Non-Directional Antenna.

It was great to hear from you again! Please stay in touch.

Bradley Hart
