

"The Stardust Sound of Radio"

August 8, 1983

Mr. Wayne Heinen  
427 East Caramillo  
Colorado Springs, CO 80907

Dear Mr. Heinen,

Please consider this letter verification of your reception on 8/5/83 from 5:02pm until 5:20pm. I was quite happy to receive your letter dated 8/5/83 and hope that you may develop into a "dyed-in-the-wool" fan as so many of our listeners already have.

As we say, "We are proud of our sound", and with good reason. KCMN-AM is the only unique station in Colorado Springs. Operating at 1530 kHz, during daylight hours only, KCMN plays directly to the 35+ audience. That's 53% of El Paso County!

Enclosed you will find our most current rate card as well as an Introduction to KCMN. I certainly hope that these materials will provide the assistance necessary for your hobby.

Finally, I'd like to thank you at this time for sending me information on Distance Listening (DX) and the National Radio Club. Until now, I had no information on these organizations.

If you happen to require further information in the future, please do not hesitate to contact me.

Sincerely,

A handwritten signature in blue ink that reads "Dona G. Tandy". The signature is written in a cursive style with a large, flowing 'D' and 'T'.

Dona G. Tandy, Program Director
