Mr. Dave Herrald
Director - Deployment & Operations
KCUV Radio
1201 18th Street #220, Denver
Littleton, CO 80202-1421

Dear Mr Herrald,

I am very pleased to report reception of KCUV on May 24, 2003 on 1510 kHz between 9:10 AM and 9:12 AM MDT. I would like to offer the following program details as proof of this reception:

9:10 AM Listening to "Culture Buzz"

9:12 AM Beep - Beep - Beep (like the phone company) "The frequency you are listening to has change to 1150..." promo to tune from 1510 to 1150. "To hear both sides tune to AM 1150 KNRC" This was over the top of the Culture Buzz program.

The signal here in Aurora will be much better, especially at night, from the new 1150 facility. Many night KFNN in Mesa has been audible under KNRC. I am looking forward to having the call swap verified from both sides!

Equipment in use while listening to KCUV consisted of a Drake R8B Communication receiver with a variety of indoor and outdoor antennas. By trade I'm a real estate appraiser and have been a BCB DX'er since 1964. Please find enclosed return postage to facilitate your reply.

If my report is found correct I'd appreciate a verification from KCUV to add to my collection from over 1600 BCB stations. Once again, thank you in advance for your time and consideration in answering this report and helping me with my hobby.

Sincerely,

Wayne Heinen
