Chief Engineer
KEZZ
131 Stanley Ave
Estes Park CO 80517

Dear Sir,

I am very pleased to report reception of KEZZ on Date on 1470 kHz between 8:10 AM and 8:15 AM MDT. I would like to offer the following program details as proof of this reception:

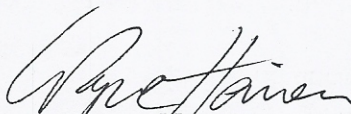

8:10 AM Tune into Spot for Estes Park Shuttle 586-5561 followed by upcoming events in Estes Park. "I'm (I missed his name) for KEZZ"
8:15 AM Spot for Movies at the Stanley Village Cinema.

KEZZ's signal is marginal at best here in Southeast Aurora even with my communications receiver. A lot of that is do to the increase in man made electronic noise over the years.

Equipment in use while listening to KEZZ consisted of an R-390A/URR Army surplus receiver with a 4' box loop antenna. By trade I'm a real estate appraiser and have been a BCB DX'er since 1964. Please find enclosed return postage to facilitate your reply.

If my report is found correct I'd appreciate a verification from KEZZ to add to my collection from over 1500 BCB stations. Thank You in advance for your time and consideration in answering this report and helping me with my hobby.

Sincerely,

Wayne Heinen

*Thank you
for
your report...*
