KLIM Radio 1120
Limon, CO

Dear Sir,

I am very pleased to report reception of the new KLIM on 1120 kHz on 5-28-84 from 10:28am till 10:47am MDT. Your signal in the eastern Aurora area was well heard on my communications receiver, but was lost between KKBB and KRZN on the AM part of my single clock radio. I would like to offer the following program details as proof of this reception:

10:28am Tune in to C&W music
10:30am KLIM News
10:32am Weather
10:33am Promo "Ask the folks in Hugo who they listen to" KLIM Limon. & C&W Music
10:36am thru 10:43am C&W music w/ Bailing Wire Bob
10:43am Public Service on Holiday Safe Driving & Promo by DJ AP news on the hour more music
10:46am Dan Roth invites you to listen to KLIM & More music
10:47am Commercial read by DJ for Strout Realty 775-9812.

I am enclosing a brochure about the BCB DX hobby and return postage for your convenience. I'd appreciate a verification from KLIM to add to my collection if my report is found correct.

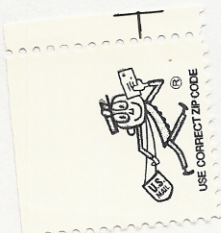

I wish everyone at the new KLIM all the success in the world on your new station and would like to thank you in advance for taking the time and trouble to reply to my report and help me with my hobby.

Sincerely,

Wayne Heinen
