Dear Sir,

I am very pleased to report reception of KLVZ on November 3, 1999 on 1220 kHz between 7:45 AM and 8:00 AM MST. I would like to offer the following program details as proof of this reception:

7:45 AM Religious oriented contemporary music  
7:54 AM Spot Dr. Dale Wal DDS  
7:55 AM "Victory 1220 KLV" and more music  
8:00 AM ID "Victory 1220 KLVZ Denver"

Welcome back! Signal was just fine in South East Aurora. I have noted however, that KLVZ is barely audible at night. The old KBNO used to be much stronger. I was curious what may have caused such a change? My location is 4 miles east of Cherry Creek Reservoir.

Equipment in use while listening to KLVZ consisted of an R-390A/URR Army surplus receiver with a 4' box loop antenna. By trade I'm a real estate appraiser and have been a BCB DX'er since 1964. Please find enclosed return postage to facilitate your reply and a brochure about the BCB DX hobby and The National Radio Club.

If my report is found correct I'd appreciate a verification from KLVZ to add to my collection from over 1500 BCB stations. Thank you in advance for your time and consideration in answering this report and helping me with my hobby.

Sincerely,
