DENVER, COLORADO 80219
(303) 937-1200

NOVEMBER 29, 1982

MR. WAYNE HEINEN
427 EAST CARAMILLO ST.
COLORADO SPRINGS, CO. 80907

Dear Listener,

This letter is confirmation of your reception of KNUS in Denver on the following dates and during the times shown. The information or tape recording you provided was adequate to determine that you have received our station.

KNUS operates full-time at 710 KHz with 5000 watts of power utilizing a directional antenna system. We use the same pattern day and night (DA-1) from four towers in a straight line spaced 770' apart on a bearing 119 degrees true. Our transmitter is located southwest of Brighton, Colorado about 20 miles northeast of Denver.

Enclosed is a copy of our current coverage map.

Reception confirmed:

11/13/82 (MST) 12:08 - 12:24 AM.

Sincerely,

Bill Harris, Chief Engineer

P.S. Wayne, your reception report looked fine, but the better catch would be WHTB, KMPC in L.A., KGNC in Amarillo, you are located well within our 0.5 mW contour, so I'm not surprised you pulled us out.

RECEPTION CONFIRMATION

RADIO STATION **KNUS** DENVER, COLORADO, U.S.A.

TO: Wayne Heinen

Thank you for your reception report for radio station KNUS, AM 710 in Denver.

KNUS transmits 24 hours a day with 5,000 watts of power.

Our antenna is a directional array consisting of four 280 foot (85.344 meter) towers located in Adams County just northeast of Denver. The directional pattern is a "figure 8" with the main lobes aimed northeast and southwest.

We are very pleased to confirm your reception of KNUS which you received on 10 / 1 / 2000 at 7:30 PM MDT.

We hope that you enjoyed our programming!

710 KNUS
