Dear Wayne,

It is my pleasure to acknowlege your letter of October 20th...we occasionally receive letters from other members of your club from across the country. In fact I acknowleged a letter from your club last year from eastern Michigan....sometimes the ionosphere acts up and the "am" signal "skips" are really strange. But let this letter be an official receipt of your tuning us in. The National Radio Club is a fine organization and it's my pleasure to help you with your hobby.
