Chief Engineer
KWSR
Rifle, CO

Dear Sir,

I am very pleased to report reception of KWSR on 810 KHz on 2-13-79 from 5:35-5:36. At 5:35 you broadcast a commercial for the Rifle Gas(?) agency 113 W. 3rd street in Rifle this was followed by a time check by the Announcer named Red on KWSR then a long weather forecast. QRM was from KAPE, in NM, KCMO in Missouri, and CHQR in Calgary Alberta.

I've been trying to hear and verify all of Colorado for the last few years, This is my first reception of KWSR with a commercial that could be checked against your log! Your station is audible here most evenings around sunset as the skip starts. When the skip picks up KCMO drowns you out.

I am enclosing return postage for your convience and I'd appreciate a verification from KWSR to add to my collection. Please find enclosed a flyer on BCB DX'ing and the National Radio Club of which I'm a member.

Thank You in advance for taking the time and trouble to answer this verification request.

Sincerely,

Wayne Heineh
