Serving Lake, Sumter, Orange and South Marion Counties

April 9, 1990

Wayne Heinen
4131 S. Andes Way
Aurora, CO 80013

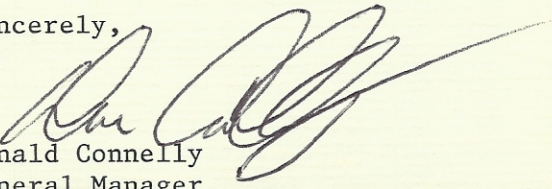

Dear DX Listner,

Congratulations! From the information you have provided, our engineering department has confirmed your reception of 1410 WQBQ, Leesburg, Florida, U.S.A. at the time and on the date you specified of our experimental broadcast. WQBQ operates at 5,000 watts using entirely solid state Harris SX5A transmitter.

Your reception is a rare catch as WQBQ is a Daytime only station operating from 6AM to 6:30PM local time.

Once again, congratulations and good "DXING."

Sincerely,

Donald Connelly
General Manager

The letters just keep coming Wayne!
