Dear Sir:

We are pleased to verify your report of reception of
Radio Station WAOK on Jan 9 1968 from 1:47
to 2:08 pm EST.

WAOK operates during daylight hours with a non-directional antenna, and from sunset to sunrise with a four-tower directional antenna. We operate 24 hours daily for the entire week, with the exception of Monday mornings from 1:00AM to 4:00AM, at which time we are closed down for transmitter maintenance. During certain times, we may be heard during these hours when transmitter testing or distortion measurement is in progress.

We appreciate your report of reception of WAOK, and hope that you may be found in our audience at every possible opportunity.

Sincerely,

Ivan Miles
Chief Engineer
