HST

ALAN L. ROYCROFT
Engineer
ALR.

Wayne, Thank you for the KOKI report. You
are quite a way east & usually WSM
hashes up most reports. I guess your
trusty loop cleared most interference.
We plan on a new tower in March
which will be fifty feet taller than
the present 270 ft tower which is too
short for 650 kHz. The other three
AM's (KAVH, KIKI & KZOO) sharing the tower
won't benefit as much as KOKI.
73's Al.
