Dear Wayne:

Yes, according to the information that you mailed to us, you indeed were listening to KCNZ/KDNZ 1650, in Cedar Falls, Iowa on November 27th, 2004. The programs you have listed are the programs that KCNZ did carry at the time of your reception of our signal. This is letter of verification from our station and we hope that this will complete what you need from us! Thanks for listening and we hope you will be able to tune in and enjoy us in the future!

KCNZ and KDNZ actually broadcast simultaneously, but we can split the signal when we have multiple live sports to broadcast which is nice so we can make everyone happy! Or at least try too! ☺

Good luck with your hobby, and I will look forward to hearing from you again!

Janelle Rensch
