

95 KGGO

DES MOINES' BEST ROCK AND ROLL

KGGO FM & AM
3900 NE Broadway
Des Moines, IA 50317

August 20, 1990

Dear Sir:

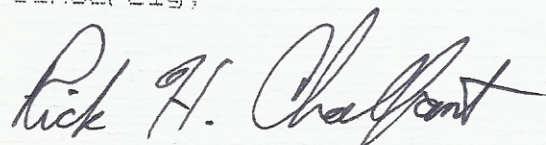

Thank you for your recent reception report of KGGO AM. KGGO AM (formerly KSD) is a direct simulcast of KGGO FM which is a #1 rated AOR class C FM.

KGGO AM operates on assigned frequency of 1460 kHz with unlimited hours and a nominal power of 5kw day and night. During night time hours we operate with a two tower directional array which provides us with many DX reception reports like yours.

KGGO AM was also the first station in Iowa to implement AM Stereo. We operate with the Motorola C-QUAM format and are one of about six stations in the state to maintain AM Stereo.

I am enclosing some of our current station souvenirs for your collection. I hope this letter provides you with the verification you need and that you have many pleasant hours of future listening.

Sincerely,

Rick H. Chalfant
Chief Engineer
