4131 S. Andes Way
Aurora, CO 80013-3831

This verifies your reception on November 3, 1999 of KXTK, Des Moines, Iowa on 940 kHz from 8:48 to 8:55 PM CST.

940 khz was the frequency of KIOA-AM from 1947 to 1996. In December 1996, the call letters changed to KXTK, and the format changed to talk radio. Early last year, the talk format was scrapped. We simulcast Oldies 93.3 KIOA-FM most of the day. KXTK does air a local sports talk program weekdays 3:00 PM to 7:00 PM, and during baseball season "AM 940" is the home for the Iowa Cubs.

KXTK broadcasts with 10 kW day, 5 kW night. Our studios are in downtown Des Moines, and we share the building with KRNT-AM, KIOA-FM, KAZR-FM, KSTZ-FM, and KLTI-FM.

Thank you for your interest... sorry for the late response.

Sincerely,

Calvin Bierman
AM Production Director
