December 3, 1976

Mr. Wayne Heinen  
2603 Paseo Road  
Colorado Springs, Colorado 80907

Dear Mr. Heinen:

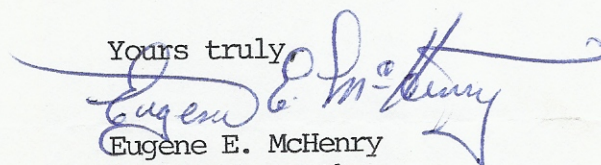

We were indeed happy to receive your reception report concerning our signal being broadcast on 1420 kHz on Saturday morning, from 3:03 until 3:11 A.M., CST. It is always nice to hear that you are getting out. Yours is the first report since we finished an extensive antenna overhaul and ran our proofs.

We are a 5000 watt directional station both day and night. Our transmitter is located on our antenna farm just north of Bettendorf, Iowa. Our studios are located on top of Brady Street Hill, in Davenport, Iowa. We have been on the air since 1922 and we are pleased to place you among the thousands we have heard from since then.

We wish you lots of luck in your DXing. With your elevation you should do well, but the mountains can be tricky.

Thank you for your report.

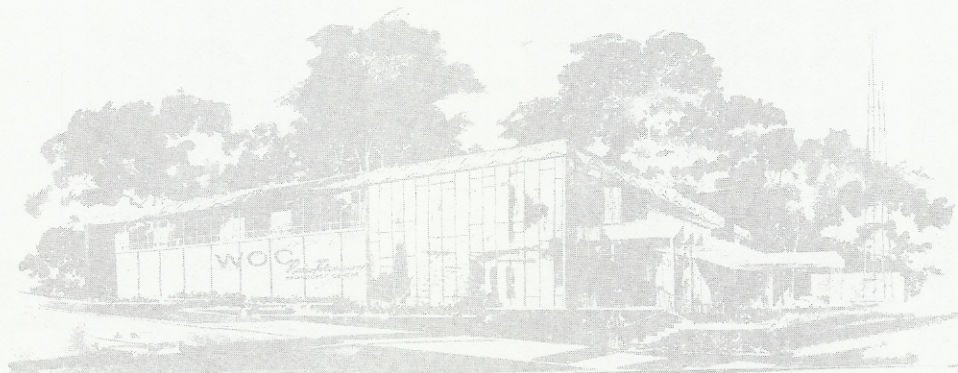

Yours truly

Eugene E. McHenry  
Assistant to the  
Director of Engineering
