February 13, 2004

Chief Engineer
WBGX Radio
15700 Campbell Ave.
Harvey, IL 60426-2898

Dear Sir,

I am very pleased to report reception of WBGX on February 9, 2004 on 1570 kHz between 3:05 AM and 3:06 AM CST. I would like to offer the following program details as proof of this reception:

3:05 AM Faded up with Male announce "WBGX wants you to know about Mother Henry Hurts she's on every Saturday at 5 AM with the Down Home Gospel program, that's right Mother Henry Hurts is here with the Down home Gospel program on your twenty four hour gospel station AM 1570 WBGX the big Gospel Station, Don't forget to tune in." followed by Gospel Music
3:06 AM Faded out

I was able to tape this and it was rather exciting as WBGX is the farthest station to the East that I have heard from my Colorado listening post on 1570 kHz. Your signal was on top for that time period but was not heard again during this mornings listening session.

Equipment in use while listening to WBGX consisted of a Drake R8B Communication receiver with a variety of indoor and outdoor antennas. By trade I'm a real estate appraiser and have been a BCB DX'er since 1964. Please find enclosed return postage to facilitate your reply and a brochure about the BCB DX hobby and The National Radio Club.

If my report is found correct I'd appreciate a verification from WBGX to add to my collection from over 1600 BCB stations. Thank you in advance for your time and consideration in answering this report and helping me with my hobby.

Sincerely,

Wayne Heinen
