

WQUA

The Sound of Five Cities • MOLINE, ROCK ISLAND, EAST MOLINE, ILLINOIS • DAVENPORT, BETTENDORF, IOWA

MOLINE, ILLINOIS

January 25, 1966

Mr. Wayne Heinen
126 Linwood Avenue
Orchard Park, New York
14127

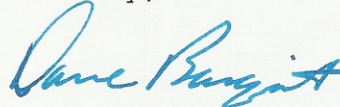

Dear Mr. Heinen:

Thank you for your recent report. We are happy to confirm your reception of our signal on December 6, 1965. The broadcast you heard was our monthly frequency measurement transmission which is conducted the first Sunday of each month from 12:45 to 1:00 a.m., C.S.T.

WQUA broadcasts 24 hours-a-day with a power of 1,000 watts daytime and 250 watts nights. Our antenna is a 1/4 wave-length shunt-fed vertical, fed by a Collins 20V-3 transmitter.

Thank you for your report, and I hope you keep listening for WQUA.

Sincerely,

Dave Barquist
Assistant Engineer
