

November 6, 1980

Mr. Wayne Heinen
427 East Cavamillo St.
Colorado Springs, Colorado 80907

Dear Sir:

I'm very pleased to receive your reception report on our station from 117 AM to 121 AM on Monday morning 11-3-80. Your report was accurate. We were on the air at the times indicated for regularly scheduled transmitter maintenance. Our normal programming runs 24 hours a day except for 12-5 AM on Monday mornings. Reception reports we receive during on the air maintenance periods are very rare and yours is the first I have received.

I had just finished calibrating our remote control equipment against our transmitter meters and we were in the process of adjusting audio processing equipment and ID'ing the station when you received us.

I'm pleased to enclose this weeks station newsletter and 2 window stickers.

Again, thanks for your report.

Sincerely,

Larry E. Means
