Wayne Heinen
4131 S. Andes Way
Aurora, Colo. 80013-3831

Dear Mr. Heinen,

Thank you for the report of reception of KAYS Radio here at Hays. I am enclosing copies of our program log, engineering log and a few other items. Sorry we do not have any bumper stickers at this time.

We are transmitting with a Harris 1 kw transmitter with a Motorola stereo exciter. our range is approximately 75 miles daytime and 40 miles nighttime. In the past few years we have received reports from Sweden and Finland. Some of the tapes sent to us were quite distinct.

It was a pleasure to hear from your town. We have relatives in the Rocky Mountain area including Colorado Springs, Denver, Aurora, Grand Junction and Boulder. We visit this area often.

Sincerely,

Ken Giebler Chief Eng.
