Dear Wayne,

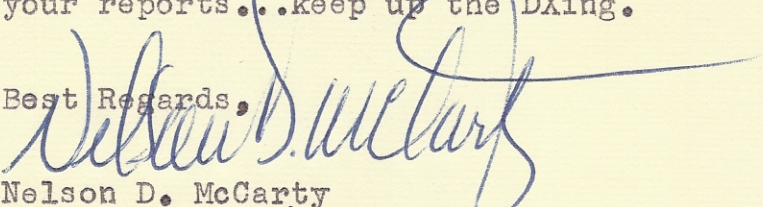

This is a letter to verify your reception of our monthly frequency test on the morning of Monday, October 13, from 12:10 am-to-12:18am.

As with any of the frequent DX'ers who find our 1550 signal through the maze of radio broadcast traffic, it's usually a bit muddled due to our 1000 watt transmitter.

I've enclosed some information about the station including our coverage map, rate cards and general sales brochures for your files.

Thanks for taking the time to drop us a note...we appreciate your reports...keep up the DXing.

Best Regards,
