Dear Sir:

This will verify your reception report of January 6, 1980, of KINA. We were in the process of performing an annual equipment performance measurement in preparation for license renewal. The words you heard were "KINA, Salina. On the air for annual equipment performance measurements during the experimental period." I was the engineer doing the proof; approximate time 0130.

Since you seem to be an avid pursuer of DX, you should become a "ham" radio operator. I have been a ham for 14 years and find it very enjoyable as a passtime. It is infinitely more satisfying than just listening to the BCB.

Good luck in 1980 !

Sincerely,

E. Joe Eck (AIØA),
Chief Engineer/Operations Manager
