

KLIB RADIO

P. O. BOX 856 ★ LIBERAL, KANSAS 67901

Dear

Wayne,

This is to verify that you received KLIB's transmission on the morning of April 9, as your report matched the material transmitted. *Time 1:05 CST*

Thank you very much for your letter. It is interesting to know how far our signal reached, from San Jose, California to South Bend, Indiana.

The sweep tones were heard the best. We are using a Harris M W 1, AM transmitter, completely solid state, operating at 1 KW with 187 ft. tower. We are non-directional operating only daylight hours. Our present schedule is 6 AM to 7 PM. We normally cover an area with a radius of 80 miles..

Sincerely,

Bob Oblander
