Chief Engineer
KSCB Radio 1270
Liberal, KS

Dear Sir,

I am very pleased to report reception of KSCB on 1270 kHz on 2-16-79 from 5:45pm- 5:54pm CST. I would like to offer the following details as proof of my reception:

- 5:45 Rock music by Bruce Springstien
- 5:48 KSCB mentioned by DJ & song by Elvis Presley
- 5:52 2 Short spots (names not caught)
- 5:53 Spot for Lincoln Tire Center then Spot for Tri State Transmission.. both of Liberal
- 5:54 Music by Linda Rondstadt

KSCB was received on a 1943 US Navy surplus receiver with a 12" ferrite core loop antenna. I'm located in Downtown Colorado Springs about 15 miles from the foot of Pikes Peak. KSCB suffered interference from KDJI in Holbrook Arizone and KFJZ in Dallas Texas.

I've been DX'ing from Colorado Springs since 1975 but have done very little Sunset Skip DX. Being laid up with a few cracked ribs prompted me to spend some time at the dials to pass the time.

Please find enclosed return postage for your convience I'd appreciate a verification from KSCB if my report is found to be correct.

Thanks in advance for your time and consideration in replying to this verification request:

Sincerely,

Wayne Heinen
