Chief Engineer
KWBW Radio
1700 W 17th Avenue
Hutchinson, KS 67501-2609

Dear Sir,

I am very pleased to report reception of KWBW on January 15, 2004 on 1450 kHz between 1:03 AM and AM CST. I would like to offer the following program details as proof of this reception:

1:03 AM Tuned in to hear "at this time KWBW ends another broadcast day, with studios at 1700 Seventeenth KWBW is owned and operated by Eagle Communications Incorporated..."

KWBW was perfectly audible during the above that I was able to record on my PC, then faded down under the usual din of 1450. I thought I heard the Star Spangled Banner but that may have been another station.

Equipment in use while listening to KWBW consisted of a Drake R8B Communication receiver with a variety of indoor and outdoor antennas. By trade I'm a real estate appraiser and have been a BCB DX'er since 1964. Please find enclosed return postage to facilitate your reply and a brochure about the BCB DX hobby and The National Radio Club.

If my report is found correct I'd appreciate a verification from KWBW to add to my collection from over 1600 BCB stations. Thank you in advance for your time and consideration in answering this report and helping me with my hobby.

Sincerely,

Wayne Heinen

Dear Wayne: I'm sure listening to our sign off wasn't the most interesting thing you've ever heard on the radio ...but I'm glad you can add us to your list of monitored stations. I'm also shocked that our 1,000 watt signal was heard, anytime, in suburban Denver.

Thanks for listening, be it ever so brief... and best wishes

Dan Deming
Manager/KWBW RADIO
