THE TRI-STATE AREA'S BIGGEST COVERAGE STATION

July 22, 1966

Mr. Wayne Heinen  
126 Linwood Avenue  
Orchard Park  
New York 14127

Dear Mr. Heinen:

This letter will verify your reception of our signal on July 7, 1966.

Our antenna is vertically and horizontally polarized and is 860 feet above average terrain and 3086 feet above sea level. The effective radiated power of WFRB-FM is 13,000 watts and the Collins Transmitter is used.

You will find enclosed herewith a coverage map showing the wide scope of our station. Thank you very much for your interest in WFRB.

Yours very truly,

D. C. Loughry  
Chief Engineer

DCL/ljw
