

DETROIT, MICHIGAN 48231

February 15, 1966

Mr. Wayne Heinen
126 Linwood Avenue
Orchard Park, New York 14127

Dear Mr. Heinen:

Thank you for your letter of February 13th in which you reported hearing WWJ. A check of our log indicates your report of reception is correct.

Enclosed please find a copy of our February Program Schedule which lists our regular AM and FM programs.

We use a Gates 10KW transmitter running at about 6KW into a Collins 12-bay antenna mounted on our WWJ-AM tower at 500 feet. Our ERP is 50KW. Our studios are in downtown Detroit, and the transmitters are located in Oak Park, a northern suburb of Detroit.

Our AM and FM transmitters are remotely controlled from the TV transmitter located about three miles distant in Southfield.

Sincerely,

O. J. Lapham
Chief Engineer
