

January 2, 1976

Wayne Heinen
1028 Pike Dr.
Colorado Springs, Col. 80904

Dear Wayne:

It was interesting to receive your reception report. The description of programming you heard on KAYQ on December 27th was adequate enough for us to be able to confirm that you were certainly listening to our station.

Eventhough our signal is directional with most of the energy directional westward, it is quite unusual that you would receive our 250 watt night-time signal. Incidentally, we are 1,000 watts non-directional daytime.

Up until recently, KAYQ was a sister station to KLAK in Denver. Now we are owned by the Coleman American Company, here in Kansas City.

Thank you for taking the time to write and let us know of your KAYQ reception. Best of luck in your 1976 DX'ing.

Sincerely,

Benton Weiss
