

October 1, 2004

Mr. Wayne Heinen
4131 S. Andes Way
Aurora, CO 80013-3831

Dear Wayne,

This letter is to confirm your reception of KBUL-AM on 970 kHz between 12:50 AM and 1:05 AM MDT on September 8, 2004.

The programming items and commercials you listed have been checked with our program log for that date and time and were found to be correct.

KBUL-AM operates with a power of 5000 watts. Our antenna pattern is non-directional days, while our nighttime pattern is directed mostly north using a 4-tower system. We operate a 24-hour, seven-day schedule.

Thank you for your report and for listening, and good luck in your DX endeavors.

Sincerely,

Jay Brandon
Operations Manager, KBUL-AM
