Mr. Wayne Heinen  
4131 So. Andes Way  
Aurora, CO 80013

Dear Mr. Heinen,

This is in reference to your reception report of January 1, 1986, and your request for a DX Test letter dated 12-21-85. Your reception of KURL on December 31, 1985 was indeed correct. It was too bad you only had 2 minutes of our programming, but the time was ripe for skywave after 5pm MST. XEX on 730 khz in Mexico City (100,000 watts) usually booms into Colorado around that time do it's a wonder you heard us at all.

In reference to your request for a DX Test. I will be conducting a proof of performance at KURL starting at midnight, February 10, 1986, a Monday morning as you requested. I will identify KURL during the proof so you can monitor us without question.

Thanks again for your reception report, I appreciated hearing from you. Let me know if I can be of more service in the future.

Yours Sincerely,

A handwritten signature in blue ink, appearing to read "Clark D. Prim". The signature is fluid and cursive.

Clark D. Prim  
KURL, Chief Eng.
