Dear Sir,

I am very pleased to report reception of KHUB on December 24, 1990 on 1340 kHz between 5:00 AM and 5:02 AM CST. I would like to offer the following program details as proof of this reception:

5:00 AM ID Surfaced "KHUB, Fremont Nebraska"
followed by ABC News
5:02 AM Faded out in the middle of ABC News

From the way that your ID came up, I can only assume that KHUB was just coming on the air. KHUB was mixing with KNHN, Kansas City and by 5:05 am both stations were totally gone. My local KDEN is off the air on Mondays between 1:00 AM and 5:30am CST.

Equipment in use while listening to KHUB consisted of a R-390A/URR Army surplus receiver with a 4' box loop antenna. By trade I'm a real estate appraiser and have been a BCB DX'er since 1964. Please find enclosed return postage to facilitate your reply.

If my report is found correct I'd appreciate a verification from KHUB to add to my collection from over 1300 BCB stations. Also, if available any bumper stickers or station promo items to help decorate my "DX Den". Thank You in advance for your time and consideration in answering this report and helping me with my hobby.

Sincerely,

Wayne Heinen
