31 January 1976

Dear Mr. Heinen:

I would like to confirm your reception of KOGA Radio on 12/28/75 from 1:28 - 1:31 CST on 930 Khz. KOGA went directional (nighttime operation) on the 21st of November, 1975. We have a sort of clover leaf pattern with our large major lobes going North and South, a small lobe West and three tiny lobes orientated Eastward. We operate between 6 a.m. MST and 12 midnight except on Friday and Saturday evenings of which times we remain on the air until 1 a.m. the following day.

I appreciate your report of reception and am sorry for the delay in answering your letter.

Sincerely,

Larry Brian Radka  
Chief Engineer
