JANUARY 16, 1976

MR, WAYNE HEINMAN
1028 PIKE BRIVE
COLORADO SPRINGS, COLORADO 80904

DEAR WAYNE:

THIS WILL CONFIRM RECEPTION OF KOLT RADIO ON 1320 KHZ THE EVENING OF JANUARY 9, 1976. I HAVE FOUND THAT YOUR TIMES ARE IN CORRELATION TO OUR PROGRAM LOG OF THAT DATE AND TO THE LOGS CONTENTS.

RON LADD WAS THE ANNOUNCER WHOM YOU WERE LISTENING TO THAT EVENING.

KOLT IS LOCATED $2\frac{1}{2}$ MILES WEST OF SCOTTSBLUFF ON HIGHWAY 92. WE ARE RUNNING A BAUER 5 KW-D 1KW-DA TRANSMITTER WITH A PHASE OF 81 DEGREES SOUTH/WEST AND 87.5 DEGREES NORTH/EAST WITH A PHASE ANGLE OF 48.5 DEGREES. PRIMARY COVERAGE AT NIGHT IS BEAMED UP AND DOWN THE NORTH PLATEE RIVER.

AS OF LAST EVENING WE JUST COMPLETED A COMPLETE RETUNING OF OUR ANTENNA FARM, 2 STICKS, DUE TO THE INSTALLATION OF A MICROWAVE RECEIVER SCREEN WHICH WAS INSTALLED A YEAR AGO FOR THE CABLE TV SYSTEM WHICH WE OWN. DUE TO THE FACT WE WERE RUNNING UNDER A CP I FEEL THIS IS WHY RECEPTION OF KOLT WAS HEARD IN COLORADO SPRINGS AS CLEARLY AS IT WERE IN THAT THE ADDITION OF THIS SCREEN AFFECTED OUR NIGHT TIME DIRECTIONAL PATTERN.

THANK YOU FOR YOUR INTEREST IN KOLT AND IF YOU'RE EVER IN THE AREA PLEASE FEEL FREE TO VISIT OUR STUDIOS.

SINCERELY,

MIKE ROCKWELL - CHIEF ENGINEER

5000 WATTS DAY - 1000 WATTS NITE - CBS AFFILIATE
