Aurora, CO 80013-3831

Dear Wayne:

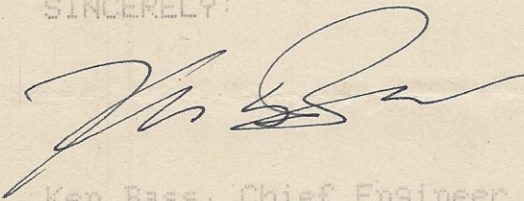

It gives me great Pleasure to confirm your report of reception of  
KCKN RADIO.

YOUR REPORTED DATE AND TIME OF RECEPTION: OCTOBER 27, 1987 - 6:59  
PM MST.

KCKN operates with 50,000 watts directional in a figure "8" Pattern  
radiated roughly west-northwest by west-southwest. KCKN was formerly  
KBCQ. In April of this year the KBCQ format of adult contemporary music  
was moved to our co-owned fm station (KCKN). We sought, and were  
granted a call letter change to follow the format change. Now  
KCKN (KICKIN') COUNTRY is on 1020 AM.

We greatly appreciate reports of reception from you and your fellow  
DX'ers around the world. KEEP LISTENING. )

SINCERELY:

A handwritten signature in black ink, appearing to read "Ken Bass", written over a horizontal line.

Ken Bass, Chief Engineer
