Dear Wayne:

This letter will verify your reception of KCQL on August 18, 1994 between 10:43 and 10:43pm MDT.

Your letter, dated September 4th, referred to reception on "September 18"...I assume this was a typo and the real date was August 18, 1994.

I apologize for the delay in answering your report, but I've finally given my desk its quarterly cleaning!

KCQL operates 24 hours daily on 1340 kHz with 1kw non-directional in C-Quam stereo.

Thank you Wayne for your report.

Sincerely,

Dan Kelley
