Mr. Wayne Heinen
1028 Pike Drive
Colorado Springs, Colorado 80904

Dear Mr. Heinen:

We are pleased that you were able to pick up the signal of KKIM. People from the 4 corners area are always writing and mentioning our signal is received in this area. It gives us a good idea of how far the words of the Lord reach through KKIM.

On your report of our reception, the description of our last 15 minutes on 3/11/76 is correct. We have had other reports from Denver, Colorado on KKIM's signal, but it's good to hear from several different locations in one state!

Other information on our signal: We use a CCA 10,000 Watts transmitter. Our tower is 307 feet above the average terrain. We are centered in Albuquerque, sunrise to sunset.

I am sending you our rate card so you can see our coverage area which we could update a little since doing extensive work on our transmitter. Also enclosed is our program schedule.

Thank you again for the letter. We hope you tune us in more often.

Yours in Christ,

Kevin H. Hart
