Dear Mr. Heinen,

I was thrilled to receive your "DX" report for 960 KWYK. I am the female disc jockey you reported hearing on the 19th. Although I know very little about the station equipment, I am a "high school kid discovering the magic of radio and the trill of long distance communications." I have been employed at KWYK since June '78 as a disc jockey and FM Monitor. KWYK is a daytime station with a Navajo program from 6 am until 3:15, then an English rock program until local sunset time.

Because I am not a professional disc jockey, I would greatly appreciate more correspondence from you, along with any suggestions on how to improve my radio show and create more interest for my listeners.

Sincerely,

A. Yolanda Kaime
