Dear Mr. Heinen:

This will verify your reception report of WCGR on October 17, 1965 between the hours of 10:58 A.M. and 11:10 A.M. E.S.T.

WCGR operated on an assigned frequency of 1550 Kc with a power output of 250 watts from sunrise to sunset from a non-directional antenna.

Our transmitter, located two miles southeast of the main business area, is remote controlled from our studios at 41 South Main Street.

It is interesting to us to hear from you so we have an idea of how far our signal travels.

Sincerely,

CANANDAIGUA BROADCASTING
