

Dear Mr. Heinen:

This will confirm your reception of WLIM between 5:00 and 5:02AM EST on February 16, 1991. WLIM, at this time was testing with its full day time facilities---10,000 watts, non-directional. We normally protect CBJ in Quebec at night. Thanks for setting up this test. Let me know anytime you would like to do it again.

Sincerely,

George Drake
Vice President
